

The Department of Data

The DoD

Jobs:

- Tracking word frequency of use
- Tracking the borrowing or influence of real languages on community-made unofficial lexicon
- Track native languages of community members by percentage and amount
- Maintaining an archive of literature and other works made by community members with creator consent
- All demographic data collection will be voluntary and anonymized.

Hiring requirements: must pass a standardized organization and communication test compiled by Nôu F (enêoƣe ƣexê, solo director)

The Department of Risk Tracking and Assessment

The DRTA

Jobs:

- Monitor for potentially harmful media within the community
- Keep track of individuals with records of spreading harmful media
- Ban those repeatedly not upholding community standards
- Basic moderation tasks
- Moderate across platforms if possible to keep a consistent moderation standard across the community, this is voluntary
- Document moderator actions to be available to other moderators
- Review ban and removal appeals

Hiring requirements: Must have prior moderation experience with recommendation from either a co-moderator or upper moderator/owner

Possible hiring slot formula: $(d / 10) + 2$

The Department of Translation

The DoT

Jobs:

- Translate official non-êde text, such as dictionary definitions and community announcements
- Review translated texts when working with another member on one text

Hiring requirements: Must be fluent in English and at least one other language. Hiring will be biased towards those who are native to a non-English language

Possible hiring slot formula: $3 * (n / 15)$

The Department of Community Lexicon

The DoCL

Jobs:

- Document community-made lexicon
- Track Community-made lexicon origin and influences
- Report usage frequencies to the DoD

Hiring requirements: must be an active community member and pass a standardized communication assessment compiled by Nôu F (enêoķe ķexê, solo director)

Possible hiring slot formula: $3 * (d / 10) + 5$

Notes

d = documented community members as recorded by the DoD

n = native speakers to a non-English language as documented by the DoD

Lexicon = a language or conlang's vocabulary

unofficial/community lexicon = community created vocabulary not yet standardized.

Draft proposal for future scaling. None of the departments described here are currently active.

Hiring formulas are guidelines and may be capped in early stages
